

## **Ayinger Brew Experience –the brewery tour**

You will be guided through the most advanced and committed private brewery located in the heart of Bavaria.

Learn how we are brewing unique beers - from raw material to the final product.

Taste the natural ingredients (water, malt and hops) and the fresh spent-grain-bread, the specialty beers directly from the storage tank and feel happy at the beer tasting in the impressive show room "Schalander".

Experience a 3-dimensional movie presentation under the brewery's roof and an audiovisual show on top of the storage tanks. All participants will receive an Ayinger surprise. At the brewery gift shop you will find a huge selection of beer related articles, books and souvenirs. The tour takes about 2 hours.
